

# CLAHRCs In The Innovation Landscape

Justin Keen  
NIHR CLAHRC for  
Leeds, York and Bradford

## Needs-driven R&D:

- Addictions
- Vascular prevention
- Maternal & child health
- Stroke care
- TRiP-LAB

### Needs-driven R&D:

- Addictions
- Vascular prevention
- Maternal & child health
- Stroke care
- TRiP-LAB

- ▶ NHS can articulate R&D needs
- ▶ Clinical teams review practice
- ▶ Commissioners commission (structural changes)

CLAHRCs are ...

- ▶ Explicit recognition of the limits of experimental evidence
- ▶ About 'multiple interventions'
- ▶ Where science meets common sense (Cook and Campbell 1969)
- ▶ About sense making (Pawson and Tilley 1997)
- ▶ About puzzle solving (Sudoku 2006)

### Needs-driven R&D:

- Addictions
- Vascular prevention
- Maternal & child health
- Stroke care
- TRiP-LAB

- ▶ NHS can articulate R&D needs
- ▶ Clinical teams review practice
- ▶ Commissioners commission (structural changes)

- ▶ Synthesise research findings
- ▶ Formal training
- ▶ Learning sets
- ▶ R&D in job descriptions
- ▶ ...
